HONORARY MEDICAL OFFICERS - Filling up of vacancies - Procedure - Orders passed.

- -

Education and Public Health Department.

G.O. (Ms) No. 3741.P.H. Dated, the 6th November 1948

READ - the following:-

G.O. No. 1643 P.H. dated the 12th May 1947
G.O. No. 1328 P.H. dated the 22nd April 1948.

ORDER:

In G.O. No. 1643 P.H. dated the 12th May 1947, the Government ordered that roughly 66.2/3% of the vacancies should be filled by war service candidates and the remaining 33.1/3% by civilians. They have now decided that the following procedure should be followed in making appointments to the posts of Honorary Medical Officers and Honorary Assistant Medical Officers which werelast advertised by the Surgeon-General in 1947:-

2. The vacancies in each hospital (except the City Hospitals, which will be grouped together to form a single unit) will be allocated as far as possible, between war-service and civilian candidates in the ratio 2:1. On a consideration of the recommendations made by the Surgeon-General and the special Committees prescribed under the rules, the Government will select candidates for appointment. In the vacancies reserved for civilians, appointments will be made for a period of five years. In vacancies allotted to war-service candidates, appointments of such suitable applicants as are available will be made temporarily for a period not exceeding one year. If suitable war-service applicants are not available, suitable civilian applicants will be appointed, temporarily for a period not exceeding one year.

3. The Surgeon-General will re-advertise all these war-service vacancies, as well as all the war-service vacancies for which there are no applicants, either war-service or civilian, and which therefore remain unfilled, so that a final chance may be given to all demobilized war-service candidates for submitting their applications. In the case of those posts filled temporarily as above by war service candidate if more suitable war service candidates apply on re-advertisement they will be appointed for a period of five years ousting the existing incumbents. If more suitable war-service candidates do not apply, the existing incumbents will be continued for a period of five years from the date of the first appointment.

4. In the case of the posts filled temporarily as above by civilian candidates, if suitable war-service candidates apply on re-advertisement, they will be appointed for a period of five years, ousting the existing incumbents. If suitable war-service candidates do not apply, the posts will be de-reserved and the existing incumbents will be continued for a period of five years from the date of the first appointment. In the case of vacancies for which there were no applicants and which remained unfilled, suitable war-service applicants will be appointed, if they are available. If not, they will be deserved and filled up by civilians.

Civilian vacancies which remain unfilled may also be re-advertised by the Surgeon-General adopting the same tune.

Assistant Medical Officers, Junior and Senior:

5. The attention of the Surgeon-General is in this connection, invited to rule 5(3) of the rules appended to G.O. No. 1328 P.H. dated the 22nd April 1948, relating to the terms and conditions of service of Honorary Medical Officers.

6. An Assistant Medical Officer, will be classed as "junior" if he has not done 3 years s or over 3 years satisfactory service as an Assistant Medical Officer except in the special cases mentioned in the sub-rule. An officer who has rendered 3 years or over 3

years satisfactory service may be classed as "senior". An Assistant Medical Officer (Junior) may be designated as an Assistant Medical Officer (Senior) on his completing 3 years' satisfactory service as an Assistant Medical Officer (junior). The Surgeon-General is requested to put up necessary proposals to Government at the appropriate time for such change in classification in each individual case.

(By order of His Excellency the Governor)
